ANNEX

to the

Proposal for a

COUNCIL DECISION

on the position to be adopted, on behalf of the European Union, within the EEA Joint Committee concerning an amendment to Protocol 10 to the EEA Agreement, on simplification of inspections and formalities in respect of carriage of goods, and Protocol 31 to the EEA Agreement, on cooperation in specific fields outside the four freedoms

(CBAM Financial Contribution)

ANNEX

DRAFT DECISION OF THE EEA JOINT COMMITTEE No [...]

of [...]

amending Protocol 10 to the EEA Agreement, on simplification of inspections and formalities in respect of carriage of goods, and Protocol 31 to the EEA Agreement, on cooperation in specific fields outside the four freedoms

THE EEA JOINT COMMITTEE,

Having regard to the Agreement on the European Economic Area (“the EEA Agreement”), and in particular Articles 86 and 98 thereof,

Whereas:

- (1) The incorporation of Regulation (EU) 2023/956 of the European Parliament and of the Council¹ into the EEA Agreement requires the use of Union information systems which partly relate to the operation of the customs territory of the Union. Furthermore, the CBAM Registry and the common central platform are developed specifically for the operation of CBAM, to which the EFTA States need to be associated with, and which therefore requires specific adjustments for that purpose. The EFTA States are not part of the customs territory of the Union and therefore by default have not had access to the specific customs information systems that are also used for the purposes of CBAM. As regards the participation in the specific customs information systems relevant for the operation of CBAM, as well as EFTA specific adjustments to the CBAM Registry, including any specific adjustments related to the common central platform, the financial participation rules are laid out in Protocol 10 to the EEA Agreement. As regards the participation of the EFTA States, including the EFTA Surveillance Authority, in the CBAM Registry and the participation of the EFTA States in the common central platform, the financial participation rules are laid out in Protocol 31 to the EEA Agreement under the rules of Article 82 and Protocol 32 to the EEA Agreement. As the EFTA States will contribute financially to the systems, they shall in return enjoy the right of access and use of those systems for the application of Regulation (EU) 2023/956.
- (2) Annexed to this Decision are indicative amounts of the financial contributions from the EFTA States for the purposes of Protocol 10 at the time of adoption of this Decision.
- (3) As Regulation (EU) 2023/956 does not apply to Liechtenstein, this Decision should not apply to Liechtenstein.
- (4) Protocol 10 and Protocol 31 to the EEA Agreement should therefore be amended accordingly,

¹ OJ L 130, 16.5.2023, pp. 52.

HAS ADOPTED THIS DECISION:

Article 1

Protocol 10 to the EEA Agreement is amended as follows:

2. In Article 2, the following paragraph is added:
- ‘5. Provisions in Annex III to the Protocol related to the application of Regulation (EU) 2023/956 apply between the Community, Iceland and Norway.’
3. The following annex is inserted after Annex II:

‘Annex III

Technical and financial arrangements for the application of Regulation (EU) 2023/956

Article 1

Definitions

For the purposes of this Annex:

- a) ‘CBAM Registry’ shall mean the Registry of authorised CBAM declarants in the form of standardised electronic database containing the data regarding the CBAM certificates of those authorised CBAM declarants, as established pursuant to Article 14 of Regulation (EU) 2023/956;
- b) ‘common central platform’ shall mean the platform established for the sale and repurchase of CBAM certificates, pursuant to Article 20 of Regulation (EU) 2023/956;
- c) ‘CRMS’ shall mean the Customs risk management system (CRMS) referred to in Article 36 of Commission Implementing Regulation (EU) 2015/2447;
- d) ‘CCN2’ shall mean Common Communication Network 2;
- e) ‘CRS’ shall mean the Customer Reference Services System;
- f) ‘Datalab’ shall mean the System used for risk management analysis and for data aggregation and transformation regarding customs transactions data.

Article 2

CBAM processes related to customs controls and risk management

1. For the exchange and storage of information pertaining to the communication between the Commission and the customs authorities of Norway and Iceland, the CBAM Registry shall be used. For CBAM customs risk-related information, the CRMS system shall be used.
2. The CRMS system shall be used for communication between the customs authorities and between the customs authorities and the Commission for the application of Regulation (EU) 2023/956, and for the exchange of CBAM customs risk-related information and risk analysis as referred to in Regulation (EU) 2023/956.

Article 3

Uniform User Management and Digital Signature platform

1. The authentication and access verification of economic operators, officials of Iceland and Norway and officials of the EFTA Surveillance Authority, for the purposes of access to the CBAM Registry, shall be effected using the Uniform User Management and Digital Signature platform (UUM&DS).
2. The UUM&DS platform shall enable the communication between the identity and access management systems of the Contracting Parties referred to in paragraph 6 for the purposes of providing secure authorised access to the electronic systems to the Contracting Parties' officials and economic operators.
3. The UUM&DS platform shall consist of the following common components:
 - (a) an access management system;
 - (b) an administration management system;
4. The UUM&DS platform shall be used to ensure the authentication and access verification of:
 - (a) economic operators for the purposes of having access to the CBAM Registry;
 - (b) the Contracting Parties' officials, including officials of the EFTA Surveillance Authority, for the purposes of having access to the common components of the CBAM Registry and for the purposes of maintenance and management of the UUM&DS platform.
5. The Contracting Parties shall set up the access management system provided by the Commission to validate the access requests submitted by economic operators and Contracting Parties' officials, including officials of the EFTA Surveillance Authority, within the UUM&DS platform by interoperating with the Contracting Parties' identity and access management systems referred to in paragraph 7.
6. The Contracting Parties shall set up the administration management system to manage the authentication and authorisation rules for validating the identification data of economic operators for the purposes of allowing access to the electronic systems.
7. The Contracting Parties shall set up an identity and access management system to ensure:
 - (a) a secure registration and storage of identification data of economic operators;
 - (b) secure exchange of signed and encrypted identification data of economic operators, used in the identity and access management platform for the purpose of granting them access to the platform by the administrator of the platform.

Article 4

Protection of professional secrecy and personal data

1. The information exchanged by the Contracting Parties as part of the measures provided for in this Chapter shall enjoy the protection extended to professional secrecy and personal data as defined in the relevant laws applicable in the territory of the recipient Contracting Party.
2. In particular, that information may not be further transferred to persons other than the competent authorities in the recipient Contracting Party, nor may it be used by those authorities for purposes other than those provided for in the Agreement.

Article 5

Data Management and Ownership and Security

The Contracting Parties shall ensure that the data registered at national level corresponds to the data registered in the common components and is kept up to date.

Article 6

Arrangements concerning the responsibilities, commitments and expectations upon the implementation and operations of the CBAM Registry components and services, communications systems and underlying systems required for the operation of CBAM

Regarding the extension of use of the CBAM Registry to Iceland and Norway, these Financing Arrangements (hereinafter referred to as “the Arrangements”) define the elements of collaboration between the Contracting Parties, related to the CBAM Registry and services, communication systems and underlying systems required for the operation of CBAM.

- (a) The Commission will develop, test, deploy, manage and operate the specific CBAM Registry components adjustments, including the application and services, and communication systems and underlying customs systems, such as UUM&DS, CCN2, CRMS, CRS and analytics (Datalab), that are required for the EFTA States for the operation of CBAM, including any specific adjustments related to the common central platform.
- (b) Iceland and Norway will develop, test, deploy, manage and operate any national components that are deemed necessary for the interconnection to the CBAM Registry and operation of the common central CBAM processes, such as:
 - (1) providing customs data compatible with the relevant data structure needed for communications with the CBAM Registry;
 - (2) providing the relevant corporate identifier, and all related data, compatible with the relevant data structure needed for communications with the CBAM Registry, and regular updated of those data.
- (c) Iceland and Norway agree to cover the one-off costs incurred by specific adjustments in point (a) that are necessary for the EFTA States’ operation of CBAM, including any specific adjustments related to the common central platform, as follows from the indicative amounts annexed to this Decision. Iceland and Norway will share the amount between them applying the standard proportionality factor, except for the delivery costs for the CCN2 system, which are to be supported only by Iceland.
- (d) Iceland and Norway agree to cover a share of 0,625%, as of 2027, of the operational costs of the communications and customs systems mentioned in point (a), with an annual indexation of 2%. For UUM&DS and CRS, the operational costs shall be covered as of 2026. Iceland and Norway will share the amount between them applying the standard proportionality factor, except for the operational costs for the CCN2 system, which are to be supported only by Iceland. The indicative amounts are annexed to this Decision.
- (e) The Commission will calculate the costs in accordance with its contracts with contractors established under the current procedures for the award of contracts.

- (f) Costs referred to under point (d) may be subject to a review in 2028, at the initiative of the Commission, without prejudice to the EU's Multiannual Financial Framework.
- (g) The development and operational costs of national component(s) will be entirely borne by Iceland and Norway.
- (h) By 30 June each year, starting from 30 June 2026, or after the entry into force of this Decision, whichever is the later, the Commission will request Iceland and Norway to pay the one-off costs incurred for the development of the adjustments, including the application and services, to CBAM Registry components that are necessary for the EFTA States, and communication systems and underlying customs systems, referred to under point (a), that are required for the EFTA States operation of CBAM, on the basis of a duly documented debit note issued by the Commission.
- (i) Iceland and Norway agree to participate in the operational costs of the applications and services and underlying customs systems that are interconnected with the operation of the CBAM Registry, referred to under point (a). For the purpose of fulfilling point (e), the following applies:
 - (1) By 30 June each year, starting from 30 June 2026, or after the entry into force of this Decision, whichever is the later, the Commission will inform Iceland and Norway of the estimated operational costs for that year and the estimated operational costs for the next year in writing.
 - (2) By 30 June 2027 only, the Commission will request Iceland and Norway to pay each their annual contribution for the operational costs of year 2026, as well as the estimated annual contribution for 2027. By 30 June each year, starting from 30 June 2028, the Commission will request Iceland and Norway to pay their annual contribution for that year plus the amount of the balance (negative or positive) of the previous year on the basis of a duly documented debit note issued by the Commission.
 - (3) By 31 January each year, starting from 31 January 2028,
 - The Commission will clear the accounts relating to the past annual costs on the basis of the sum already paid by Iceland and Norway as against actual costs incurred by the Commission and will provide Iceland and Norway with a statement of account containing a breakdown of costs identifying the different services and the supply of software; and
 - provide Iceland and Norway with the actual annual costs, i.e. real operational costs, for the past year. The Commission will calculate the actual and estimated costs in accordance with its contracts with contractors established under the current procedures for the award of contracts. The balance (negative or positive) between the actual costs and the estimated amount of the previous year will be calculated and communicated to Iceland and Norway via a statement of account from the Commission. The statement of account will include the estimated annual amount for the contribution, plus the amount

of the balance (negative or positive), resulting in a net amount that the Commission will invoice to Iceland and Norway via the annual debit note.

- (j) The payment made by Iceland and Norway will take place after the issuing date of the debit note. All payments must be made to the Commission's bank account indicated on the debit note, within 60 days. In the Union, the utilisation of the appropriations arising from the participation of the EFTA States shall be in accordance with the provisions of the Financial Regulation.
- (k) If Iceland and Norway pay the amounts provided for in points (c) and (d) later than the dates specified in point (j), the Commission may charge interest on the arrears (at the rate applied by the European Central Bank to its operations in euro, published in the "C" series of the *Official Journal of the European Union*, on the day on which the deadline for repayment expires, plus one and a half points).
- (l) If Iceland and Norway request specific adjustments to or new IT products for the CBAM Registry components, applications or services, the initiation and completion of those developments is subject to a separate mutual agreement regarding resource needs and development costs.
- (m) The Contracting Parties agree to acknowledge and fulfil their respective responsibilities in relation to the usage of the IT systems as described in this Annex.

Article 7

Monitoring the implementation of this Annex

The EEA Joint Committee shall determine how the Contracting Parties are to monitor the implementation of this Annex and to verify compliance with its provisions.'

Article 2

The following paragraph is inserted after paragraph 16 (Regulation (EU) 2023/2418 of the European Parliament and of the Council) of Article 7 of Protocol 31 to the EEA Agreement:

'17. The EFTA States shall, as from 1 January 2025, participate in the Union actions related to the following budget line, entered into the general budget of the European Union, for the financial years of 2025, 2026 and 2027.

- **Budget line 9.20.04.01:** "Carbon border adjustment mechanism".

This paragraph shall not apply to Liechtenstein.'

Article 3

This Decision shall enter into force on the day following the last notification under Article 103(1) of the EEA Agreement*.

It shall apply from 1 January 2025.

* [No constitutional requirements indicated.] [Constitutional requirements indicated.]

Article 4

This Decision shall be published in the EEA Section of, and in the EEA Supplement to, the *Official Journal of the European Union*.
